

You're in. Here's what happens next.

Four steps, one short call, and Bella is answering your phone — typically within 48 hours.

1

The 15-minute setup call

We go through your menu, hours, seating times and booking rules — and how you'd like Bella to greet your callers.

2

We build Bella for your venue

Your menu, your rules, your greeting. We test her before you ever put her on a real call. Typically live within 48 hours.

3

A five-minute call forward

You keep your number. Bella takes every call, or only the ones your team can't get to — you choose. No hardware, no apps.

4

Your free first week

Bella answers real calls; you watch every booking and transcript live in your dashboard. Keep her only if she earns it.

What we need from you (5 minutes, tops)

- ✓ Your current menu — a PDF, a link, or even a photo is fine
- ✓ Opening hours and seating times
- ✓ Booking rules — biggest group size, sittings, anything Bella must never promise
- ✓ How you take bookings today (paper diary or system — both work)

The fine print, plainly: flat monthly plan · no per-call fees · month-to-month, cancel anytime · your data exported within 24 hours if you leave.
Australian data residency · Privacy Act compliant · Sydney-based support, 7 days.

Questions before the setup call?
